

Curriculum Vitae

Name: Zishaan Mansoor

Objective

I am a passionate Information Communication Technology (ICT) student with a strong desire to build innovative tech solutions and grow as a professional in the IT industry. My goal is to develop creative systems, enhance my programming and web development expertise, and eventually establish my own IT company that contributes positively to society. I am motivated by continuous learning, personal improvement, and a vision to uplift my family and community through technology.

Experience

As an ICT student at Berea College of Technology, I gained hands-on experience in programming languages such as Python, Java, and JavaScript, as well as web development technologies. I have completed several academic projects, including developing an ATM system in Python and a hospital management system in Java. These experiences strengthened my problem-solving, teamwork, and adaptability skills.

Education

Berea College of Technology – Diploma in Information Communication Technology (ICT)

Completed modules: Emerging Technologies for the Industrial Revolution, Fundamentals of Computer Programming, Introduction to Computer Networks, and Computer Engineering.

Merebank Secondary High School – National Senior Certificate (Bachelor's Pass)

Skills

- Computer Literacy (Microsoft Word, PowerPoint, Email, Internet)
- Web Development (HTML, CSS, JavaScript)
- Programming (Python, Java, JavaScript)

- Teamwork and Adaptability
- Strong Problem- Solving Skills

Projects

- Gaming Website – An interactive gaming platform designed to enhance user experience compared to typical gaming websites.
- Car Website – A modern car showcase website featuring detailed visuals and design- focused elements.
- Aesthetic Website – A visually appealing website inspired by creativity and modern design trends.
- ATM System (Python) – A functional ATM simulation program.
